

Canada Fact Sheet

Canada Overview

Canada is Hawai'i's second-largest international visitor market and maintains a long-standing connection with the islands. While British Columbia and Alberta remain key source markets, Ontario continues to demonstrate strong growth potential. Many Canadian snowbirds spend extended stays in Hawai'i during the winter months, and a notable number own property throughout the islands. Strengthening Hawai'i's appeal as a preferred destination for Canadian travelers remains a strategic priority, with messaging that emphasizes the warm welcome and sense of belonging Canadians experience through the spirit of aloha. Hawai'i's unique combination of rich cultural experiences, natural beauty, outdoor adventure, relaxation, and safety aligns well with Canadian travelers' desire for meaningful, immersive, and mindful travel experiences.
